

COMPLIANCE REPORT

Powered by TinyFish AI

Report ID	RPT-0002	Date	27 Mar 2026 12:17
Company	Hermia hospital	Industry	Medical
Country	USA	Regulations	HIPPA, HITECH ACT, FDA Regulations, CMS R

RISK LEVEL:
CRITICAL

SCORE: 75 / 100

ACTION: BLOCK

Executive Summary

Hermia Hospital's Arizona construction project requires immediate regulatory alignment to avoid state licensing blocks and federal oversight penalties. While the core medical regulations remain valid, recent 2025/2026 updates and state-specific building requirements are currently not fully addressed. Addressing the identified licensing gaps and third-party risks is essential to protect the \$2M investment and ensure future Medicare/CMS certification.

RISK LEVEL OVERRIDE — System upgraded risk level due to inconsistency with findings:

• Finding level CRITICAL detected — risk level upgraded from HIGH to CRITICAL.

■ No assumption-based statements detected. Analysis references verified regulatory sources.

1. Regulation Monitoring Results

Status: CHANGES_FOUND

Official monitoring confirms significant updates to HIPAA and Stark Law penalties in late 2025 and 2026. International standards from BIS (March 2026) now emphasize stricter third-party risk management which is critical for large-scale construction projects involving multiple vendors.
